Summary

Seasoned IT professional with over 12 years experience, highly motivated, goal-oriented, and thriving to excel in software technologies. I have an innate desire for keeping up to date with technology and building prototypes. A demonstrated history of delivery oriented work ethic for satisfied team members, leadership, and clients.

- Built ETL workflows, data warehouse tables and dashboard reports from scratch for Fixed income securities and Trading security operations.
- Created local development frameworks using Docker and Docker Compose.
- Built end to end reporting solution for more than 5000 users.
- Worked on scrum team according to agile methodology.

Education

1999 - 2003 Bachelor of Technology  
Illinois Institute of Technology

1998 - 1999 Specialization in Business Administration and Management  
Bentley University

Area of interests

- Research
- Badminton
- Book collecting
- Science and technology studies
